

## Star Protection Agency utilizing the Latest Technology .....

Star Protection Agency recently expanded its patrol capabilities. To increase officer mobility, Star will be utilizing an electric motorized three wheel vehicle that provides personal mobility with enhanced visibility and agility. The vehicle is only sold for government, law enforcement, or security purposes and is specially equipped with police lights and siren. The T3 will be primarily used for patrols in high traffic areas including special Star events.

The T-3 on patrol at Pearlridge Mall, Honolulu, Hawaii.
